DOCTOR NEUMANN has removed several Corn and a Bunion much to my satisfaction. N. B. SEABROOK, RICHMOND, Va., Leigh steet, near 3d, April 3, 1852.

TO ALL WHO ARE SUFFERING FROM CORNS, BUN-IONS, &c.—I am happy to give my testimony that Dr. Neu-mann has cured me of a very bad Corn, much to my satis-faction.

W. NEILL, M. D., 372 Pine st., above 13th.

Dr. Neumann, from Berlin, has cured my Corns and very troublesome Bunion, without cutting, or giving mpain.

AMOS PALMER, M. D., 218 Wainut street, Philadelphia.

I join with pleasure my testimony to the foregoing ones in favor of Dr. Neumann's method of curing Corns. He has operated to my perfect satisfaction—the operation performed without giving me the least pain.

Signed, L. TRAPMANN, 101 Broad street.

Charleston, March 17, 1852.

Dr. NEUMANN, from Berlin, Chiropedist to the late King of Prussis, respectfully informs the ladies and gentlemen of Washington that he cures CORNS, BUNIONS, and TENDER NAILS, without the dangerous and uscless practice of cutting, and without giving the least pain. By this method the patient will be able to wear tight shoes in a few minutes. Hundreds of testimonials have been presented to him wherever he practised.

NERVOUS DEBILITY.

Weakness of the system, Nervous Debility and premature decay generally arise from the destructive habit of youth, that solitary practice so fatal to the healthful existence of man, and it is the young who are most apt to become its Victims, from an ignorance of the dangers to which they subject themselves. Parents and Guardians are often misled with respect to the cause or source of disease in their sons and wards. Alas! how often do they ascribe to other causes the wasting of the frame, Palpitation of the Heart, Dyspepsis, Indigestion, derangement of the Nervous System, Cough, and Symptoms of Consumption; also those serious Mental effects, such as loss of Memory, Depression of Spirits, or peculiar fits of Melancholy, when the truth is, they have been caused by indulging in Pernicious but alluring practices, destructive to both Body and Mind. Thus are swept from existence thousands who might have been of use to Society. Dr. H. has given particular attention to female diseases. His experience enables him to relieve safely and Special all Irregularities, Nervous Derangement, Constitutional Weakness, General Debility, dc. GANIC WEAKNESS.

This grand and important Remedy has restored strength and vigor to thousands of the most debilitated individuals, many who had lost all hopes, and been abandoned to die. By its complete invigoration of the Nervous System, the whole faculties become restored to their proper power and functions, and the fallen fabric of life is raised up to beauty, consistency and duration, upon the ruins of an emaciated and premature decline, to sound and pristine health. Oh, how happy have hundreds of misguided youths been made, who have been suddenly restored to health from the devastations of those terrific maladies which result from indiscretion! Indeed, without this, the journey through life becomes a weary pilgrimage; the prospect hrurly darkens to the view; the mind becomes shadowed with despair, and filled with the melanchely reflection that the happiness of another becomes blighted with our own. He who places himself under the care of Dr. Johnston may religiously confide in his honor as a Gentleman, and confidently rely upon his skill as a Physician.

TO STRANGERS.

The many thousands cured at this institution within the last ten years, and the numerous important Surgical Operations performed by Dr. J., witnessed by the Reporters of the papers and many other persons, notices of which have appeared again and again before the public, is a sufficient guaranty that the afflicted will find a skilful and honorable physician.

It is with the greatest reluctance that Dr. Johnston permits his card to appear before the public, deeming it unpressional for a physician to advertise; but unless he did so, the afflicted, especially strangers, could not fail to fall into the hands of those improducts. the mands of those improach, costing imposors—instruc-uals destitute of knowledge, name, and character—pediars, sheemakers, mechanics, &c., advertising themselves as phy-sicians; ignorant quacks, who keep you trifling month after month, as long as possible, and in despair leave you with ruined health to sigh over your galling disappointment. It is this motive alone that induces Dr. J. to advertise, for he alone care you. If the proposition of Mr. Lenox; made months afterwards in the Convention, entitles him to so much credit, ought less to be given to Mr. Maury, who originated it, and had urged its adoption upon the District Committee months before?

The amendments to the charter agreed upon by the Convention having failed to meet the approbation of Congress, and various unsuccessful efforts having been made to obtain amendments up to the session of 1847-8. Mr. Maury introduced resolutions in the Board of Aldermen, to submit the amendments to the charter which had subsequently been agreed upon by the two Boards to a vote of the people of the city, on the 23d of February, 1848. Previous to the day of voting, public meetings were held in the First, Fourth, Sixth, and Seventh Wards, to consider the proposed amendments. Mr. Maury attended all of these meetings, and explained to his fellow-citizens the objects contemplated by the amendments. He urged upon them their adoption, and especially upon the ground of the favorable provision made for the support of public schools. The amendments to the charter were approved by a large majority of the voters, and were submitted to Congress by the Corporation Committee, of which Mr. Maury was a member. When they were laid before the District Committee of the House of Representatives, Mr. Seaton (at that time the Mayor) was confined to his house by a severe and protracted was confined to his house by a severe and protracted illness. "LET JUSTICE HAVE ITS RIGHT."

THE friends of Mr. Maury, most anxious that the present carvaes for the Mayoralty should be conducted, so far as they could influence the character of the contest, with perfect fairness, frankness, and courtesy—desiring that, whatever other result should attend it, no heartburnings or ill will should arise from it—have quietly permitted their opponents to go on making elain upon claim of exclusive possession of every quality which should determine the votes of their fellow-citizens, until, at last, arrogance unrebuked has become so rampant, that it is necessary, by the

possession of every quality which should determine the votes of their fellow-citizens, until, at last, arrogance unrebuked has become so rampant, that it is necessary, by the recital of a few plain facts, to put it down.

"A Working-man," in the Telegraph of the 1st instant, asks, "if Welter Lenox has not proved himself to be the poor man's friend in every instance?" I answer by referring "A Working-man" to the journal of the convention of delegates for framing amendments to the city charter, held in March, 1844. It there appears on the record that among the charter amendments proposed was one declaring no person eligible to the office of Mayor unless he were the bona fide owner of freehold estate assessed at the value of one thousand dollars, and another declaring no citizen eligible for Alderman or Cemmon Councilman unless he were the bona fide owner of freehold estate assessed at the hundred dollars. Mr. Maury moved to strike out the section containing these provisions; on which motion, Mr. Lenox voted in the negotive. There are the ayes and noes upon the record. Again: Mr. Lenox "is the only man in the field for Mayor that has taken an interest in the public schools," &c.

The fact is quite the reverse. Mr. Maury has done at least as much, if not more than Mr. Lenox, to promote our public schools.

Mr. Maury it was who suggested the idea—and through

The fact is quite the reverse. Mr. Maury has done at least as much, if not more than Mr. Lenox, to promote our public schools.

Mr. Maury it was who suggested the idea—and through whose instrumentality the idea was submitted to Congress and embodied in the charter—of applying the proceeds of the poll tax to the support of the public schools. And the school-bill of lat November, 1848, extending the school system, was drawn up by Mr. Maury himself. The original bill, in his hand-writing, is now on file with the records of the Board of Common Council.

But Mr. Lenox has been a faithful, prompt, and efficient officer, we are told, whose "administration will not suffer in comparison with that of any of his predecesors." How faithful! So faithful, that the Corporation's expenses have been permitted to go far in advance of its means! Do you want the proof? Consult the Corporation account at the Bank of Washington, we left shows an actual deficit of upwards of \$20,000, and, but for the deposits this year of a large sum by the late Collector, on account of collections made several years ago, would have shown a deficit of upwards of \$40,000. Efficient and prompt in what? Efficient in predigality, and prompt to pay out Corporation moneys without authority of law. Do you want the proof? Consult the accounts of the canal expenditures, where you will find that some \$12,000 or \$15,000 have been paid out, with cout any act of appropriation by the Councils.

Again: In what condition does the Corporation find itself in reference to the change of the course of Tiber Creek through the equare 630, with this provise: "The Mayor shall I make no arrangements by which the Corporation shall be held to pay more than the amount hereby appropriated." Without making any arrangements whatever, Mr. Lenox directed the course of the creek to be changed so as to cut through the square of the creek to be changed so as to cut through the square of the ceres to be changed so as to cut through the square of the compromise with the proprietors of the

several thousand dollars. Who can say what additional appropriations on this score may yet be demanded, or in what depths of litigation the Corporation may find itself involved? Do you call this efficiency?

Of the efficiency of Mr. Lenex it would be well for his friends not to boast; of his amiability, let them talk and write as much as they will.

Whilst Mr. Maury's friends have chosen to bear themselves throughout this contest with calmness and moderation, I, for one, think it well to let our opponents know that we are not exactly a "peace society." but, on the contrary, that we have and understand the use of weapons, upon long-continued provocation. To "turn the other cheek" may disarm some generous foes; but, in the long run, the most peaceful policy, in elections at least, is in accordance with the older maxim, which teaches to return blow for blow. siliness. Mr. Maury, as Acting Chairman of the Corporation Committee, attended, with the other mombers, the meetings of the District Committee, and advocated and explained, section by section, the amendments. The result was highly gratifying to our citizens. The District Committee made a unanimous report in favor of the amendments, and they were adopted by both Houses of Congress, almost without objection.

After the charter had been amended, various propositions were from time to time brought before the wood of the control ing the public school system, but none were adopted by the Board of Aldermen, Mr. Maury offered the pollulous phil as a substitute, to reconcile conflicting opinions, and it was passed by both Boards with great unanimity and promptness.

An ACT supplementary to the "Act to increase the number of public schools the eight of Washington, and the board of the control of the con 'Art thou a spirit of health or goblin damned !"

into your paper of yesterias; I ask the favor to reply to briefly.

Speaking of the Democracy of this city, and of the municipal election in June next, the correspondent says:

"They have already made a nomination for Mayor, Mr. John W. Maury being the Democratic candidate. In the Fifth Ward, John Mulley, eq., and in the Third Ward, Col. Barrett, are the Democratic candidates for the Board of Common Council. John McNeale Latham, nephew of the disquished banker of the firm of Messus. Sciena & Co., is the Democratic candidate for the Board of Alderman in the Third Ward, so would be third. Nominations will be made in all the Wards for both branches of the council. We expect that a majority of the members of the next Council will be Democrata."

Now, sirs, claiming to know something about the action of the Democratic party here, I hestiate not to pronounce the statement quoted false in gross and false in detail. The author, wheever he is, knew when he peuned the lines that he was penning a faisehood; he knew that the Democratic of this city had made No NOMINATION for Mayor, or for any other office; he knew that they had not nominated Mr. Maury was as much a Whig as a Democratic candidate. He knew that Mr. Maury was as much a Whig as a Democratic candidate. He knew that Mr. Maury, in reply to the letter nominating him for that office, (a letter signed by upwards of seventy of our most respectable citizens, without distinction of party-indeed, sixty of whom were among our most reslous and distinguished Whigs.) expressly speaks of the inexpediency of bringing national politics into our city cicetions; and yet he deliberately charges the Democracy of this city with having useminated Mr. Maury for Mayor, and other gentlemen named for other positions or regular Democratic candidate.

I have seld thus much in vindication of the Democratic

CUTIZENS OF WASHINGTON! You will be called on in a few days to cast your votes for Mayor, and every man should be cautious how he votes for his own interest. The question is now asked, if Walter Lenox has not proved himself to be the peor man's friend in every instance? He is the only man in the field for Mayor that has taken an interest in the public schools, by which every man's child can get a liberal education. He is the man that sustains the working-man in his wages. Under his administration the police system has been so reformed that the peor man is no longer chased from pillar to post by hired spice, as formerly. He executes in person the laws against rowdyism, and, by example, stimulates the police to preserve the peace and quiet of the city. In fact, in deors and out of doors, he does his duty faithfully; and his administration of the office of the Mayorally will not suffer in comparison with that of any of his preferencesors, however active and worthy they have been. Then why change a faithful, active, intelligent, and efficient officer? Reflect before you vote:

READ AND BE WISE!

THE celebrated German and Indian Physicians, Doctors BROTHERS & GRAY, have established a permanent medical office in this city, after having travelled the world over in search of knowledge; and, having spent seven years among the Indians for the purpose of getting a thorough knowledge of botany, they flatter themselves qualified to alleviate and cure all complaints to which the human family are subject. We flatter curselves that, without asking a question, we will tell all who favor us with a call their complaints and symptoms, and guaranty an easy and speedy cure. A decided advantage we have over other medical men is in the manner we determine the nature and location of the disease, which is by the urine. We require at least two ounces of the first in the morning. The many facilities afforded us by hospital and private practice in this and foreign countries warrant us in assuring those who are suffering from disease that our treatment is attended with unusually favorable results: for, "to know the disease is half the cure." The Doctors' medicines are wholly regetable, and prepared by themselves.

References can be had at our office from persons living in all the western counties of the State of New York, Pennaylvania, Canada, &c., who, having been given up to die by the Faculty, hearing of us, and availing themselves of our skill, have been restored to health.

Diseases successfully treated at this office are the following: Consumption, both mervous and pulmonary; also, Coughs, Colds, Bronchitis, and all pains arising from the cheet, lungs, or liver; all cases of Nervous Weakness, Neuralisia, Hypochondriscal complaints; all cases of female weakness and obstructions: Dyspepsia, Salt Rheum, Syphilis, Piles, Gravel, and all Scrofulous complaints; Mercurial Diseases, Rheumatism, and all omplaints which require the blood to be pure and healthy, and to assist nature to perform her matural functions.

THE PUBLIC SCHOOLS AND JOHN W. MAURY. In consequence of the efforts made by some indiscreet friends of Mr. Lenox to create the impression that Mr. Maury is opposed to the Public Schools of this city, and that Mr. Lenox is "the only man in the field for Mayor that has taken any interest in the Public Schools," it is deemed proper to make the following statement, to show what has really been Mr. Maury's conduct in relation to them, and how far the facts in the case justify the claim to exclusive merit which Mr. Lenox's friends set up for him.

A writer in Monday's Intelligencer says:

"The following extract from the journal of the convention which submitted to Congress the basis of our present charter, and which constitutes the feature upon which our system rests, will exhibit the deep

calculated to diffuse generally the elements of public

poses of education, and for no other purpose, under such regulations as may by the Corporation from time to time be provided and established.

"Mr. Lenox moved to amend the 10th section by

If the writer had looked a little further, he would If the writer had looked a little further, he would have seen among the papers laid before the Convention on the first day of its session by the then Mayor, Mr. Scaton, a copy of a bill proposing certain amendments to the City Charter, which had been drawn up and presented to the District Committee by certain members of the two Boards. In that bill, the writer

Approved. November 1, 1848.

The journal of the proceedings of the two Boards is referred to for the above facts, and among the papers of the Board of Common Council, in charge of its Secretary, the original bill can be seen, in Mr. Maury's handwriting. This bill is now in force, and is the foundation of the present prosperity of our public schools, as will appear by the reports of the Trustices. In their report of the 13th August, 1849, they say, "the addition of ten schools to the four previously existing, embracing nearly one thousand additional pupils within a single year, all the schools (with one or two exceptions) crowded with pupils, while multitudes are pressing for admission, is in the highest degree creditable to the wisdom and liberality of the Councils, and to the virtue and intelligence

and all who take an interest in our public schools' It increased the number of pupils nearly one thousand in less than one year' and the increase has continued until our public schools now number more than two thousand five hundred pupils'

To show the interest that Mr. Maury takes in our public schools, it may not be amiss to state the fact that he is the author of the petition presented, on the part of the Corporation, to the last Congress, asking for a donation of land or money for the support of the public schools of this city, and upon which the Hon. A. G. Brown, chairman of the Committee on the District of Columbia, reported, by direction of the Committee, a bill making a donation of three hundred thousand acres of land, for the support of schools in this District.

As a friend to Mr. Maury, my desire in this, as in every other question to which the present canvass may give rise, is simply to take care that he suffers no injustice, while, in common with himself and him
